CONTINUOUS DIALOGUE WITH MILLION DOLL

(Please click here)

The board is where the MillionDoll editor will come by to explain the terminology that appears in articles. There are lots of subjective definitions, so if there was some from the real definition or a more general one, I'd like to know.

[1/1] • Million Doll Vocab Terminology •

Now that there are many *Million Doll* readers, are there any requests for term definitions? Contribute to the editor's future!

I wonder which faction has more fans amongst the devotees? Itorio & Suuka, or Mariko & Ryuuusam?

1: Mall Live

Itorio performs lives at shopping malls
(as seen on page 8). Mall lives are usually free to attend, so they're an effective method of gathering new fans.

There are a fair number of cases where important announcements, such as notices of disbanding, are made at mall lives, turning those places into sacred grounds.
Malls are the setting of many tales from when Idols were once obscure, dealing with equipment failures and whatnot.
